

## A. Dr. Scholl Foot Expert

COMING

Come  
In and Let  
Him Examine Your  
Feet and Advise  
You FREE

If you are tired of being bothered by  
hurting, tender feet, here is your chance to  
get immediate relief and permanent correc-  
tion. You are invited to consult this foot  
specialist while he is here.

He Will Be Here  
August 2nd

Don't wait until the last minute and,  
maybe, lose your chance to get foot comfort.  
Come in any time during business hours  
and talk it over with the expert.

There is a  
**Dr. Scholl**  
Appliance or Remedy for Every Foot Trouble

There is no need to suffer from any foot  
trouble, any more. Be it ever so simple or  
ever so serious this specialist, who is a  
member of the Staff of Dr. Wm. M. Scholl,  
the noted foot authority, can show you the  
way to immediate relief and to ultimate

### Foot Comfort

if you'll step in and give him the chance.  
He can tell just what the cause of your  
trouble is, and he knows the remedy.

### Improve Foot Appearance

No larger sized or oddly shaped shoes  
needed. Wear the kind you like in perfect  
comfort. The Dr. Scholl Appliances actually  
improve the grace and beauty of the feet.

**J. V. BERSCHT**  
"Watch Your Feet"

## Life Insurance Premiums are Free from Luxury Tax. Why?

Life Insurance is NOT A LUXURY, it is ESSENTIAL.  
The stock of yourself and let us inform you how little is the  
investment required to live happily and the decently. As to  
whether your Wife lives on Comfort Avenue or Penny Road may  
depend upon the amount of Life Insurance you carry. Dollars  
help a widow better than sympathy. You are under no obligation  
if you apply for rates and form of Policy. Apply now before its  
too late.

Pearl E. McNaughton, Teacher.

### Didsbury Still Winning

The Didsbury baseball team  
journeyed to Crossfield last  
Friday night but the game was  
called on account of rain, only  
three innings being played, the  
score being 4-1 in favor of Dids-  
bury.

Didsbury has two more games  
to play in the Rosebud district  
championship series, both with  
Crossfield, the next one being  
played at home on Friday next.

The Carstairs team has been  
given their amateur cards and  
consequently are reinstated in  
the A.A.U.

### Teachers Want Double Salaries

"Double the 1914 basis," will  
be the slogan of a Dominion-  
wide campaign to secure in-  
creased salaries for teachers to  
be launched in the fall of this  
year by the Canadian Teachers'  
decided upon by unanimous  
vote at the closing meeting of  
the federation in the public li-  
brary in Calgary yesterday.  
The cost of living has much  
more than doubled since 1914;  
in average cases the salaries of  
teachers have not been ad-  
vanced more than 50 percent  
for grade teachers and for prin-  
cipals and high school teachers  
the increase has not exceeded  
30 percent, delegates contend.  
The standard of living, they de-  
clare, is therefore much less to-  
day than it was before the war.

Mrs. Mary Blaisdell, mother  
of Mr. W. McIntyre, died at the  
residence of her son on Monday  
morning. She was 72 years and  
six months old, but had been ail-  
ing for some months previous  
to her death. She has been re-  
siding with Mr. McIntyre for  
three years, coming from Arn-

## Agriculture

It is imperative that every agricul-  
tural form a sound association with  
a progressive Banking Institution.  
This Bank is stimulating production by  
providing a broad service for ambitious  
farmers. Any of our 400 branches can  
furnish reliable information as to mar-  
kets and shipping facilities.

Resources exceed \$174,000,000.

## Comment on Current Events

The last week of June and the first few days of July were prolific in important changes in the political life of Canada, and in some respects these were but indicative of the unsettled state of politics generally throughout this Dominion. The Union Government, which was brought into being through the efforts of Sir Robert Borden as a war administration late in 1917, having fulfilled its destiny, has passed away; Sir Robert Borden has laid down the responsibilities of the premiership, and these have been placed on the younger shoulders of Hon. Arthur Meighen, who is not only the youngest premier Canada ever had, but also the first man from west of the Great Lakes to achieve that high office. His Government will be representative of the new political organization which supersedes the Conservative and Unionist parties in Federal politics and which has been named the National Liberal and Conservative Party. In addition to Sir Robert Borden, Hon. N. W. Rowell and Hon. Martin Burrell retire from the Government; consequently the first test of the strength of the new administration with the public will come with the election of the new ministers to be chosen.

A second change of moment was the resignation of Sir Louisa Gouin from the premiership of Quebec, an office he has held for the past fifteen years, and a longer period than any of his predecessors. Sir Louisa's retirement does not mean any marked change in the Quebec Government. He is leaving political life to engage in the activities of business, commerce and finance, and is succeeded in the premiership of Quebec by one of his former cabinet colleagues, Mr. Taschereau.

Even more significant of prevailing public opinion in Canada today was the result of the Manitoba Provincial elections which has created in the oldest of the prairie provinces a situation somewhat similar to that existing in Ontario. Of the four largest groups in the next legislature, —Liberal, Farmer, Conservative and Labor,—no one commands a clear majority in the house. Followers of the Norris Government constitute the largest single group, with Labor second, Farmers third, and Conservative fourth, with few independents in addition. The Norris Government will carry on with the support of certain of the Farmer and Independent members, while Labor will probably constitute the official opposition party.

The Manitoba elections were also noteworthy by reason of the fact that for the first time in Canada the system of Proportional Representation was applied in a Parliamentary election, the city of Winnipeg electing its ten representatives by that method. All parties seem agreed that it

was a marked success and gave general satisfaction. With ten members to be elected out of a list of 41 candidates nominated, and with 48,000 ballots cast, the new system was given the hardest test yet applied to it in any English-speaking country, and the successful outcome would seem to point to its early adoption throughout Canada.

As indicating that there has been little change in the war-time sentiment of people on the question of New Brunswick referendum is of interest. Two questions were submitted to the electorate: (1) Whether the prohibition laws should be retained, importation stopped, and a home-duty condition created, or (2) whether the sale of wines and beer should be permitted. By a vote of three to two the people declared against the sale of wines and liquor, and by a two-to-one vote emphatically recorded their preference for absolute prohibition of the traffic in intoxicants for beverage purposes.

While the people of Canada have thus been engaged in their own political affairs, in the United States the Republican and Democratic parties have adopted their platforms for the presidential elections next November and named their candidates. A clear-cut contest on the Peace Treaty subject is expected. The League of Nations is now presented to the American people, and the voters will themselves decide the issue, the Republicans bitterly condemning the acts of President Wilson at the Peace conference, and the Democrats upholding the League of Nations as necessary for the preservation of the peace of the world. While not concerned in the essentially domestic policies of the United States, Canadians will follow with keen interest the struggle for and against acceptance by the United States of a place in the League of Nations and as a co-partner with the other civilized peoples of the world in maintaining the highest international ideals.

## Minard's Liniment Relieves Distemper

### Horses in Saskatchewan (Buffalo Express)

Saskatchewan is generally associated in the mind with cold weather and wheat. It is surprising to learn, therefore, that it leads the Canadian provinces in horse population, there being a total of 1,078,000.

## CONSTIPATED CHILDREN

Children who suffer from constipation, indigestion or any of the other ailments due to a clogged condition of the bowels will find prompt relief through the use of Baby's Own Tablets. The Tablets are a mild but thorough laxative which can always depend upon to regulate the bowels and sweeten the stomach. They are absolutely safe and are sold everywhere. They are laudably free from opiates or other injurious drugs. Concerning them Mrs. Thomas A. Bonta, Lake Baker, N.Y., writes: "I am pleased to state that Baby's Own Tablets were of great help to me when my baby was suffering from constipation." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Overcrowding the Earth

Estimated That in 170 Years From Now Maximum Population Will Be Reached.

According to the statistics, the population of the world cannot go on indefinitely at the present rate. It has been estimated that if it does, then we are near the end of our tether. In about 170 years from now the maximum population, that the earth can support will be reached! The only country at the present time that is reasonably living within its assets of land is France, for to double her population requires 433 years. The present rate of increase of the population of the world is maintained (supposing such a thing possible), then in 2,000 years from now the population would be twenty-five times greater than it is now.

### F. Beddingfield Dead

Frank Beddingfield, from whom the Prince of Wales bought his Alberta ranch, is dead in England, according to a cable to Gen. Lane of the War Office.

## Saw Possibilities

### In Experiment

#### Liverpool Dockmaster Evolved Principle of Modern Lighthouse

Sometimes during the latter part of the eighteenth century a scientific person of London made a wager that he would read a newspaper by the light of a "fartling dip" at a distance of 30 feet. To do this the scientist merely coated the inside of a shallow box with sloping pieces of looking glass so as to form a concave lens, put his fartling dip into the box and readily deciphered the small print at the stipulated distance. The experiment was witnessed by a Liverpool dockmaster. He was a thinking man and saw great possibilities in this learned jest. He straightway adapted the principle to lighthouse requirements and forthwith the modern reflected light with its mile of range and greatly multiplied life-saving powers sprang into being.

## Don't Hawk, Blow, Sneeze, or Cough Use "Catarrhazone"

When germs attack the lining of the nose, make you sneeze and gag—when later on they infect the bronchial tubes—have you followed them with a cough syrup?

You can't do it—that's all. Cough syrups go to the stomach—that's why they fail. But Catarrhazone goes everywhere—gets right after the germs that kill them—breaks the infection—cures the inflammation—makes Catarrh disappear. Not difficult for Catarrhazone to cure, because it contains the essences of pine balsams and other antiseptics that simply mean death to catarrh. Large size costs \$1.00 and contains two months' treatment; smaller sizes 25c and 50c, all drug stores and storekeepers.

## Pulp Mill for Port Arthur

Provincial Paper Mills Will Spend a Million and Half on Undertaking.

Port Arthur will be the scene of important developments in paper manufacture when the plans are completed of the Provincial Paper Mills, Limited, Toronto, who have just been incorporated. About \$1,500,000 is estimated to be the amount to be spent in Port Arthur. The plant, which occupies 140 acres in the city of Port Arthur, has turned out about \$2,000,000 of sulphite, which has been sold in the United States, chiefly in Wisconsin and Minnesota. It is now intended to complete the mill in a matter of a few days. The mill is to turn out forty tons a day. With the expenditure of \$500,000 on the mill, absorbed by the new company, these productions will be increased.

Worn-out children, if they are not attended to, cause convulsions, and often death. Mother Gray's worm exterminator will protect your children from these distressing afflictions.

### An Unvalued Site (London Daily Chronicle)

The news that the Bank of England is to be rebuilt draws attention to a fact which is often passed by business men, and that is that the site on which the present buildings stand has never been valued, though it is undoubtedly the most famous in the world. What is more, the balance-sheet of the bank never includes the site and the buildings as an asset, though if these were in the possession of any other company they would probably be included as worth anything up to 10,000,000 pounds. But the bank's position is so secure that it can afford to neglect even such a great asset.

There is nothing repulsive in Miller's Worm Powders, and they are as pleasant to take as sugar, so that few children will refuse them. In some cases they cause vomiting through their action in an unusual stomach, but this is only a manifestation of their cleansing power, no indication that they are harmful. They can be thoroughly depended upon to clear all worms from the system.

Valuable hardwood forests abound in Panama.

## To Further Lignite Project

Additional Grant of \$200,000 Made to Saskatchewan Briquetting Plant.

To meet the increased cost of construction of the lignite briquetting plant an additional appropriation of \$200,000 has been made. This makes the total vote for the plant \$600,000. Of the additional vote, \$100,000 is being provided by the federal government, the governments of Saskatchewan and Manitoba dividing the other \$100,000 between them. This is the same ratio as the original vote.

The lignite utilization board has found it impossible to complete the project on the original grant of \$400,000. A recent estimate shows the total cost will be about \$600,000, exclusive of housing. In order to compare these prices with the original estimate of \$400,000, the board made a careful enquiry into the price of the contemplated plant had it been erected in 1917, the date at which the original research council report was prepared. The result was a total estimate of \$390,000, which shows that the present designs are no more elaborate than were contemplated originally.

The Hon. Arthur Meighen agreed that the federal government would contribute another \$100,000 on condition that Manitoba and Saskatchewan would each contribute a further \$50,000. The question has been taken up by Mr. Meighen with the two provincial governments and so far as Saskatchewan is concerned, the additional appropriation will be met.

## Roumania Wants Canadian Trade

Roumanian firms of paper users are turning to the United States and Canada for their supplies, according to announcements in this week's bulletin of the department of trade and commerce. Other Canadian products being sought by Roumanian firms include: Leather and leather goods, including boots and shoes, textiles, furs, fresh and canned foodstuffs, drugs and chemicals and iron.

To Asthma Sufferers. Dr. J. D. Kellogg's Asthma Remedy comes like a helping hand to a sinking swimmer. It gives new life and courage by curing his trouble—something he has come to believe impossible. Its benefit is too evident to be questioned—it is its own best argument—its own best advertisement. If you suffer from asthma get this time-tried remedy and find help like thousands of others.

### To Keep Meat

During hot months hay, cornmeal, Graham flour, or cereals in smaller quantities, then can in airtight glass jars, for insects seek dark places to lay their eggs. If one is afraid it has been visited by insects, sift and place in a hot oven in shallow pans and heat almost to the scorching point, then cool before bottling, to insure it from getting musty. If cornmeal is used, sprinkle it over a pleasant parched flavor to corn bread or mush.

## One Great Essential To A Woman's Health Is Her Nerves

Nature intended women to be strong, healthy and happy as the day is long, instead of being sick and wretched. But how can any woman be healthy and happy when the whole nervous system is unstrung. The trouble is they pay more attention to their social and household duties than they do to their health. Is it any wonder then that they become irritable and nervous, have hot flashes, faint and dizzy spells, swooning and sinking spells, become weak and everything in life becomes dark and gloomy.

Miller's Heart and Nerve Pills are the very remedy that nervous, tired-out, weary women need to restore them to the blessings of good health. Mrs. H. H. Ryan, Sand Point, N.S., writes: "I have been a great sufferer from nerve trouble. I was so weak and nervous I could not sleep at night and my appetite was very poor. I could not walk across the floor without trembling. I had hot flashes and fainting spells. When I was on my second box of Miller's Heart and Nerve Pills I began to feel better and kept on until I had used six boxes, when I felt like a different person. I am now in the house and recommend them to all who suffer with their nerves."

Price 25c per box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## Maytag Multi-Motor Washer

THERE is a Maytag Washing Machine for every need—Electric, Hand, Multi-Motor, and Power Driven.

In this issue we are going to call special attention to the Maytag Multi-Motor Washer, the machine with a built-in half-horse power motor, and a motor equipped with the Swinging, Reversible Pulley. This is, without a question, the best washing machine in the world for use on the farm or in towns where no electricity is to be had.

We have either a hardware dealer or an Independent General Store firm selling our Washers in nearly every town in Western Canada. Write us up in your home town at once and see just what this machine will do for you. You don't need a card, giving us the name of a dealer you would like to have us write to and we will send you a copy of our Free Home-Model Manual. It contains hundreds of valuable suggestions about washing and handling clothes and also describes the machine.

One of the most delightful features of the Maytag Multi-Motor Washer is ease of operation. Women everywhere agree that it is perfectly simple.

Put hot water and soap into the generous express wood tub. Fill it with soiled clothes, turn up the special starting wheel a flip with your foot. That is all. With a motion-like pulley, the little Multi-Motor goes about its work and chases all the wash-day worry from your face.

Many, many homes not having electricity are today enjoying this great convenience perfected in the famous Maytag factories.

It is the only washing machine in the world with a gasoline motor built right into the machine.

Handles heavy or light loads perfectly. Does a thorough job of cleaning in a short time.

Does away with all the hard wash-days a lot of unsavory actually protects the clothes.

Has a power winger. You merely feed the clothes through it. And when not used for washing you can latch your clothes separator, grinder, etc., to the special pulley wheel and the little Multi-Motor will operate them for you.

Why make the family washing a weary ordeal—when the cost and operating expense of the Maytag is so reasonable. So, no more Maytag dealer and see this machine.

### What It Is Like a Few Miles Up.

We know that the temperature falls rapidly with ascent, about one degree for each 300 feet, until the top of the storm level is reached at seven miles, when a most wonderful thing occurs; the thermometer no longer falls as the balloon rises; it remains practically stationary, so far as exploration has been made, which is to the height of ten miles.

We have named this region above the storm, the Isotherm (equally heated) Region. Its temperature is about 60 degrees Fahrenheit below zero and it changes only about 8 degrees between winter and summer. Of course one must assume that ultimately the temperature shades away to practically nothing as outer space is reached. Outside of the earth's atmosphere the oxygen of which we breathe at about thirty miles, the nitrogen at fifty and helium at about two hundred miles—there is total darkness even at midday, and little or no temperature—over 100 degrees below zero in the intensity of its cold.

Observations show anomalies that are startling. At one and one half miles high there is little difference between midday and midnight, except that the coolest time of the twenty four hours is during the day time and not at night, as would be most naturally supposed. This is important to an aviator or to the pilot of a balloon. As previously stated, at the height of only 1,000 feet in free air at the hottest time in midsummer's heat, the air is found to lose as much as 15 degrees in comparison with that at the ground. Almost within arm's length of the streets of great inland cities there is a cool and healthful atmosphere when humanity is sweltering and dying from heat below.

At the height of ten miles it would be difficult to hear the human voice because of the attenuated medium of transmission, and the twilight would deepen, even though it were midday. At thirty miles there would be no oxygen, one's voice could not be heard at all, and the stars would come out and darkness would ensue although it were bright sunlight below.

Come to the Didsbury fair  
September 1 and 2, 1920.

The nitrogen would cease at  
about fifty miles.

The darkness of outer space  
may be proven by taking an en-  
closed volume of air, free of it  
of dust and notes, of which there  
are millions (57 cubic centimetres,  
and 1470 lbs. try to illuminate  
it and it will be found that no  
matter how powerful the light  
that is directed into it it remains  
wholly dark. When one looks  
up at midday he apparently sees  
the whole universe illuminated;  
but in point of fact only the thin  
stratum of the earth's air in  
which he lives is illuminated.  
Outer space is practically with-  
out temperature or light. The  
rays of the sun do not become  
either light, or heat, or elec-  
tricity until they encounter the  
denser molecules of the air near  
the earth and the invisible dust  
motes and cloud particles in

## Province of ALBERTA

## GOLD BONDS

### Help Your Province

By purchasing bonds of the province of Alberta.

While securing the highest class of investment procurable you at the same time aid your province to provide for the building of its Public Works and Telephones in the most effective way.

Financing the issue of bonds within the province results in the distribution of the interest amongst our own people.

If you encourage this idea, you help your province to become less dependent on outside money markets.

Interest is payable half yearly—1st of May and 1st of November—by coupon.

Bonds in denominations of \$100, \$500 and \$1,000.

Remittances should be made by marked cheque, money order or postal note.

These Bonds may also be obtained from any recognized Bond House in the Province of Alberta.

Write for fuller information to Deputy Provincial Treasurer.

Address all communications to DEPUTY PROVINCIAL TREASURER

HON. C. R. MITCHELL,  
Provincial Treasurer.

W. F. NEWSON,  
Deputy Provincial Treasurer,  
Parliament Buildings, Edmonton, Alberta.

## Love of The Wild

### CHAPTER VI

A big man, past middle age, and seated inside a small white horse, came picking his way between the huge beech and maple trees, down through the quiet morning of the woods. He had shaggy red brows, and a big mouth that drooped at the corners. The little eyes, flashing sideways in search of the blaze on the trees, were sharp and calculating. Where the ridge sloped to the valley he reigned up.

"Must be somewhere about here," he mused aloud. "Don't know how I can miss seeing McTavish if he happens to be outside—land knows he's big enough to see—hello! who are you?"

Something animated in the shape of a boy had stirred from a log directly in the path. Leaping out it stood before the rider—a boy with long yellow curls and big brown eyes. The old white horse shied, and the boy rocked backwards and forwards on the path, veiling low, plaintive sounds. As the rider watched him a small animal crept from the thicket and climbed upon the lad's shoulder. The horse reared, and the boy, lifting his brown arms, began to wave them to and fro. At the same time he broke into a wild, tuneless chant, the words of which were unintelligible to the wondering observer. It was a shrill, weird note, fluted and varying like the call of a panther. Suddenly boy and animal vanished as though the Wild had reached forward and gathered them into its arms.

"Heavens!" shuddered the man, and struck the horse sharply with his spurs. Where the trail curved off abruptly to the valley he reined up once more and turning about, looked back.

"Well I'll be shot!" he soliloquised. "No matter where you find the Creator's handiwork and beauty you'll find His imperfections too. Ugh! how those big eyes did probe me! It's enough to make a saint shiver, let alone a chap who has climbed up as I have—not caring who I've trampled on!"

He shivered again, and felt in his pocket for his pipe. His hand brought forth a yellow wallet. A hand smelt warmly his mouth as he opened the wallet and drew out a small photograph. It was the likeness of a young woman with sweet face and great eyes. He tapped the likeness and a lock of brown hair leaped out like a startled thing about his finger. He brushed it back with a shudder, and, snapping the case, put it back in his pocket.

"I'll find that big McTavish and get this deal closed," he mused as he rode along.

The horse stumbled and a grouse whizzed along the trail, passing close to the man's head, with a thundering nerve-racking sound. He sat erect and sank his spurs into the old gray's heaving flank.

"Get up, you old bug of bones," he commanded. "Let's find that big innocent and get hold of his deed. We'll give him a dollar or so to see us back along that lonesome trail. I wouldn't go back along that spooky path fog all of old Halliburton's money. I've seen enough snakes and wolves and bears since two o'clock this morning to last me a lifetime. And that last animal—that crazy boy!—ugh!"

He alighted the old mare into a faster walk and sat hunched up and pondering until a twist in the path brought an open glade into view. The buzz of a saw and the pant of a weary

## Wonderful Strength For Weak Stomachs

Everyone Talking About the Cures Made By Dr. Hamilton's Pills

There are despairing men and women by the thousands in this city whose stomachs keep them in constant misery that can be quickly restored to vigorous health by Dr. Hamilton's Pills.

We know of no other medicine that possesses such power to kindle into new life the exhausted energies of chronic stomach sufferers.

These extraordinary powers in Dr. Hamilton's Pills that stretches out the weak spots, that braces up the delicate glands and the complex workings of the stomach and bowels.

There are invigorating, stimulating tonic ingredients in Dr. Hamilton's Pills which are derived from powerful juices taken from rare herbs and roots, and these are scientifically combined with other medicinal products so as to assist in a harmonious and proper working of the entire system.

The ingredients of Dr. Hamilton's Pills, coming from the great storehouse of Mother Nature herself, can be relied upon to be harmless. Guaranteed results follow to all those who use Dr. Hamilton's Pills for Stomach Weakness, Gas, Sourness, Headache, Bilelessness or Constipation.

Seekers of the better health can not do better than invest 25c in this health-bringing family medicine.

engine came to his ears like welcome music.

"Tother-side," he chuckled. "Let's see, Bushwhackers' Place lies just across from it. But there's the creek. Guess I'll have to ride down to the narrows."

Finally, with much grumbling, he reached the farther side of the creek, and, pulling in his horse, he gazed about him.

"Ha, look at that for timber!" he exulted. "And to think that Smythe and I will have control—"

He did not finish his sentence aloud but sat nodding his head up and down. Very soon he drew up before the long log-house. Big McTavish stepped out and pointed to a log-building in a grove of lathernuts.

"But your horse is there," he invited.

"I will, and more," agreed the arrival. "I'll enjoy a bite of bread and a slice of dried venison or anything else your larder affords. I'm hungry as an old Nick."

"You're welcome to the best we have," replied McTavish. "You're Mr. Watson, I suppose. Am I right?"

"Watson I saw—Robert W. O. Watson, that's me. I'm pretty well known through these parts; that is to say, better maybe a little east of here. This place is kind of off the map, you know. Just give the lazy skale anything that hands." He growled, referring to the patient steed that stood with drooping head and sanctimonious air, "but you needn't be in any hurry to feed her. She's Smythe's horse and used to waiting."

"I always get that you own her," he said, "and I don't," said big McTavish. "I wouldn't feel just like eatin' unless they had their fodder, too. We'll get inside and I'll have Gloss fix you up a meal. She's down at the spring now gettin' the cream ready for the churnin', but she'll be back direct."

As they groined from the stable a small form flitted by them and vanished among the trees. Watson gasped and he clutched McTavish's arm.

"That's him," he cried, "that's the crazy boy. I met a couple of times away. How did he get here so soon do you suppose?"

"Oh that's Daft Dave," smiled McTavish. "Nobody knows exactly when he'll turn up. He runs like a deer and is as shy as the wild things he plays among."

"Plays among?" repeated the other. He followed McTavish into the house and sat down heavily on a stool. "What do you mean by 'plays among'?"

"I mean that he moves among the wild things and they are not scared of him same as they are of you or me or anybody else. They do say that he can handle the cubs of bears, and wolf-kittens. I've seen him playin' with a big snake myself—not a poisonous one, of course. Seems as though Dave can pick out the things that are harmful quick enough. No

body pays any attention to him much in Bushwhackers' Place, but leaves him to himself, knowin' that God'll protect the soul he didn't give overmuch reasonin' power to."

"Humph," grunted the other, "I see you're a pious man, McTavish—pious, God-fearing and honest. Good plan to work along that line. Had a good bringing up myself. Mother's prayers, early teaching, and that sort of thing have a lot to do with making a big man. My mother is largely—should say was largely—responsible for my success. She's dead now, poor old lady. Of course, a fellow who clings has a right to some of the credit himself, I suppose. Made up your mind, I can see, to swap this forsaken wilderness for a piece of cultivated land," he said, abruptly opening the subject nearest his heart and fixing on the big man his little pig-eyes.

(To be continued.)

### New Bankruptcy Act

The Bankruptcy Act, passed at the first session of 1919, came into force on the 1st of July, under the provision of a proclamation issued in January last. Some amendments, which consideration of the Act during the last year showed to be necessary, were made at the session just prorogued. The rules, which contain very important provisions respecting the carrying out of the Act, have recently been passed by the Governor-General-in-Council.

### No Alimony—Just a Separation

Successful, quiet separation, no damage done, everybody happy again—that's the situation when you divorce your combs with Putnam's Corn Extractor. Acts like magic—don't use any but "Putnam's"—it's the best, 25c, at all dealers.

### The Married Teacher

No Reason For Prejudice Against Employment of Married Women

It should have been needless, but it was probably wise, for the Carnegie Foundation, by the report of a distinguished committee of educators, to denounce in strong terms the remaining prejudice against the employment of married women as teachers.

Says the committee: "There is probably no work in which marriage and a normal home life could contribute a qualification more essential than they could to teaching." The woman teacher is too often a "detached public servant in a class apart. If married and a householder having children, she becomes a vitally interested and respected factor in society."

A part of the old prejudice against married teachers is not rooted in the silly cry: "Let them stay at home, and give the girls a chance!" Such sacrifice of the skilled veteran to the beginner was unwise at any time. It is simply ridiculous now, when hundreds of thousands of children have no teachers at all, and other hundreds of thousands but inefficient substitutes. Yet in how many cities as in New York, are there traces of the old feeling even in the formal rules of Boards of Education—New York World.

### MOTHER!

"California Syrup of Figs"  
Child's Best Laxative

Accept "California Syrup of Figs" only—look for the name on the package, then you are sure your child is having the best and most harmless laxative for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for use on each bottle. Give it without fear. You must say "California."

### The Value of Trees

One Square Yard of Leaf Surface Purifies Great Amount of Air

It has been calculated that a single tree is able through its leaves to purify the air from the carbonic acid arising from the respiration of a considerable number of men, perhaps a dozen, or even more. The volume of carbonic acid exhaled by a human being in the course of twenty-four hours is put at about 100 gallons, but scientists estimate that a single square yard of leaf surface, counting both the upper and the under sides of the leaves, can, under favorable circumstances, decompose at least a gallon of carbonic acid in a day. One hundred square yards of leaf surface there would suffice to keep the air pure for one man, but the leaves of a tree of moderate size present a surface of many hundred square yards. All other forms of vegetable life act similarly in abstracting the noxious carbonic acid from the atmosphere.

Every time a man fails to make good he invents a new secret.

Married men imagine that heaven is a place where there is no house-keeping.

### Cuticura Ointment Is So Good For The Skin

For eczema, rashes, pimples, irritations, itching, chafes and dandruff on scalp, as well as for cuts, wounds, bites and bites and stings of insects, Cuticura Ointment is truly wonderful. It is so soothing and healing, especially when assisted by Cuticura Soap. First bathe the affected parts with Cuticura Soap and hot water. Dry gently and anoint with Cuticura Ointment. This treatment is best on rising and retiring.

Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion. Canadian Depot: The Cuticura Co., Ltd., St. Paul St., Montreal. —Cuticura Soap shaves without soap.

### Seal in all the Flavor

IMPERIAL Parowax—seals in all the natural flavors of fresh fruit into your preserves. The safe and sanitary way to preserve fruits, jams, pickles or vegetables. Saves time, labor and money.

The Parowax way is the easy way. Just pour the melted wax over your cooled preserves and it solidifies into a clean, air-tight, seal—dust-proof and moisture-proof.

IMPERIAL  
parowax

—a pure refined white wax, odorless, tasteless, colorless, absolutely sanitary—no chemicals or acids.

Placed in your wash-bottle, Imperial Parowax loosens the dirt, bleaches the clothes and removes the greasy spots that otherwise require so much rubbing. Rubbed over your iron, and mixed with your starch, it gives the finished luster to ironing that is so much desired. Imperial Parowax, a household necessity.

For sale by good dealers everywhere.

### ONLY TABLETS MARKED

"BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" stamped on tablets positively identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nineteen years and now made in Canada. Always buy an unbroken package. Tablets lost but a few cents. Bruggs of "Bayer Tablets of Aspirin" which also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer". Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monachweidnauer of Unterfranken. While it is well known that Aspirin means Bayer Manufacturing, to guard the public against imitations, the Tablets of Bayer Manufacturing will be stamped with their general trade mark, the "Bayer Cross".

## Your Eyes

Granulated Eyelids, Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by Marlin Eye Memory. No Smearing, Just Eye Comfort. At Your Drugstore or by mail 40c per Bottle. For Book of the Eye free write to Marlin Eye Memory Co., Chicago.

## PRAIRIE SOIL IN DANGER OF LOSING FERTILITY

EXPERT ISSUES A WARNING

Present Methods of "Mining" Soil Will Soon Lead West to Disaster.

Winnipeg. — Warning against the "mining" of Canadian prairie lands by "get-rich-quick" settlers who take abundant crops for a few years without re-fertilization of the ground, was sounded at the conference here of the commission on conservation of soil.

"The fate of this nation depends chiefly on the fertility of its soil," declared Prof. Hanson, "and our soils are rapidly losing their basic strength in organic matter and nitrogen. We must seek immediately to correct this."

"One of the problems which confronts us is drifting lands, due to lack of soil fibre. Land drifting is causing as much loss in some districts in the west as rust and insects."

He outlined the results of the preliminary experiments and tests being made in Manitoba to determine proper methods to prevent drifting. "While this work was far from completed, the result of the work already done," Prof. Hanson said, "led him to believe that the brown grass was the easiest method of returning the fibre to the soil."

"Farming under irrigation has been practiced in all parts of Canada and the United States profitably and should be encouraged," he said. "Carelessness in cultural methods was asserted to be undoubtedly the greatest existing cause to agriculture in Canada," said Dr. J. H. Grisdale, deputy minister of agriculture.

In his analysis of conditions of the Canadian prairies, Dr. Grisdale stated the causes for the gradually decreasing yield in bushels per acre from the cereal crops would, any year, be prevalence of weeds, lack of fibre in soil, poor moisture conservation and poor cultural methods employed by the farmers.

Among the remedies suggested were the introduction of certain hard or cultivated crops, some pairs and quick maturing crops in other districts, together with better cultural methods to aid in weed control.

## Want Salary Boost

Postmasters to Work for Short Hours and More Pay.

Winnipeg. — Shorter hours, increased salaries and time and a half pay for overtime, were resolved upon as the coming year's objectives by the Canadian Postmasters' Association at the concluding session of their convention here. Other resolutions adopted include a request for participation in the civil service bonus, and a demand that special consideration be given the pay basis of postal officials at customs ports and to officials on night shifts transferring mails from trains.

Addition of the association with the railway postal clerks, city postal clerks and letter carriers' associations was recommended. All of the officers were re-elected.

## Riot at Trieste

Trieste. — Hotels and stores belonging to Jews were sacked and burned in a wild anti-Slav demonstration here Tuesday. Scores of persons were injured and property destruction is continuing, bombs and inflammables being used by the elements engaged in the disorder.

## Alberta Coal for East

Windsor, Ont. — Acting on the advice of the fuel controller, the city council yesterday placed orders with nine operators in Alberta for large supplies of coal to be shipped immediately. Information gathered here shows that this coal can now be transported here as cheaply as coal from the United States.

W. N. U. 1325

## Opium in Egg Case

Mounted Police Discover Avenue By Which Drug Was Being Shipped to West.

Ottawa. — The accidental discovery at Papineauville, Que., a few days ago by the Canadian express authorities of a quantity of opium which was consigned to Calgary, has furnished the Canadian mounted police with the avenue by which they believe quantities of this drug have been shipped to the west during the past few months. For some time past a Chinese restaurateur at Papineauville has been in the habit of consigning one, two or three cases of eggs at a time to a fellow celestial at Calgary. There had been no suspicion attached to the shipments until one day last week when one of the cases of eggs forming part of a shipment, was found to be leaking. The express company officials reported the broken case and when examined the case was found to contain opium.

In the meantime, the consignor apparently got wind that the jig was up, and the opium has disappeared. The investigation is going on and the consignor is also being sought.

## Meighen Cabinet Complete

Ministers Have Been Sworn In With Exception of Hon. S. F. Tolmie.

Ottawa. — With the formal swearing in of Hon. P. E. Blondin, as postmaster-general, the ministry of Hon. Arthur Meighen is now complete, with the exception of Hon. S. F. Tolmie, who will be sworn in by the clerk of the privy council on his return to Ottawa, as minister of agriculture. He is at present in Saskatchewan.

Hon. P. E. Blondin takes the same position that he held in the cabinet under the government of Sir Robert Borden.

## Allies Must be United

Millerden Says That Accord Is the Thing that Will Count.

Spa, Belgium. — Premier Millerden, in an interview with correspondents, declared that the financial conference will be held July 23, as scheduled. Speaking with deliberation, he said that the allied governments had maintained that unity which is more important than the German attitude. He went on:

"If the allies are in accord, Germany will do what we want. If they are not in accord we cannot make Germany respect the treaty. My impression is that the Germans have a pretty good idea that we have a definite plan, and hope to follow it."

## By-Elections Coming

Ottawa. — There is still no announcement as to when the necessary two by-elections in the maritime provinces will be held, but the forms necessary under the new franchise Act are being got into shape for whenever the contests do take place. It is expected to take some time yet before everything is in readiness for taking the vote in any of the ridings open.

## Climbed All the Way

St. John, N.B. — Hadley McKinnon, for many years business manager of the St. John Standard, today purchased the entire interests of that newspaper.

Mr. McKinnon has occupied every position on the paper, having started in as printers' devil.

## A Baseless Charge

Vancouver, B.C. — W. H. Armstrong, for three years director of coal operations for Alberta and southern British Columbia, gave a denial to the charge frequently made by leaders of the One Big Union movement that the Dominion government was forcing miners to enter a foreign organization.

## Ex-Empress' Estate

London. — The estate of the late Empress Eugenie is valued at considerably more than £2,000,000, according to the Daily Mail. Some of the jewels of curious design are valued at almost priceless.

## MIXED FARMING IS ADVOCATED BY HON. TOLMIE

MIXED STANDARD PAYS BEST

Agriculture Minister Has Great Faith in the Future of the West.

Saskatoon. — It is the duty of the Dominion and provincial departments of agriculture to aid the development of mixed farming in all parts of Canada," was a statement made by Hon. S. F. Tolmie, minister of agriculture, when officially opening the Saskatoon exhibition. "It behooves us to develop our farming on the mixed standard rather than on that of any particular line. Great Britain is an example of what can be done by a nation when it determines to develop its agricultural interests in more than one single way."

The minister then referred to the growth in stock breeding with the British Isles, and showed what Great Britain had done for the people. "Our government takes a great interest in the development of agricultural exhibitions, believing that they render an equal benefit to rural and urban districts alike. They not only stir the ambitions of the farmers and create competition between them, but they also bind together farm and city. This is the main important factor."

Referring to the western provinces, Dr. Tolmie said he had a great belief in their future, and he thought that there was room enough for all industries.

## Want Board Reappointed

Canadian Council of Agriculture Decides to Take No Further Action in Political Organization.

Winnipeg. — The Canadian council of agriculture concluded the business of its annual meeting by deciding after long discussion, to take no further action, towards political organization, than that provided for last January by which organization is to be carried out on a provincial plan.

The principal subject discussed was whether there should be a central co-ordinating committee to take charge of a political platform.

A formal resolution was passed requesting the federal government to immediately reappoint the existing Canadian wheat board for the purpose of marketing the wheat crop of 1920.

J. K. Howard, president of the American Farmers' Bureau, addressed the council on the object of the co-operative marketing program of this organization. He said they aimed to eliminate the brokers. He invited the council to send representatives to a conference to be held in Chicago, on July 23 and 24, the object of which, he said, was to make the mid-west states a power on the Chicago board of wheat marketing.

An application has been received from the United Farmers of Nova Scotia for membership, so that now the council is composed of representatives of the farming organizations of Alberta, Saskatchewan, Manitoba, Ontario, New Brunswick and Nova Scotia.

## The Fighting Irish

Sinn Fein and Unionists Stage Battle Near Belfast.

Belfast. — About 2,000 Sinn Fein and Unionists had a fight in Lurgan over the capture of a man who is alleged to have participated in a recent raid on a mansion near Lurgan. Many persons were wounded in the fighting. A party of troops from Belfast arrived in the town and removed the man from Lurgan.

The trouble had its origin in a demand by the Sinn Fein for the release of the man which the Unionists opposed.

## Lithuania Signs Peace

London. — Peace between Lithuania and Soviet Russia has been signed in Moscow, according to a wireless message from Moscow.

## Wheat Stores Must Be Reported

Canadian Wheat Board Demands Return From All Licensees.

Winnipeg. — A new regulation, No. 143, of the Canadian wheat board, orders that all licensees of the board other than milling licensees must file with the board sworn statements of their stocks of wheat by midnight July 31.

The regulation also provides that licensees must make delivery to the board of all wheat purchased by them as licensees of the board on or before August 15, in store at public terminal elevators located at Fort William or Port Arthur, and on production of the proper documents of title, the board will pay, or cause to be paid, the cash payment fixed by other regulations of the board.

## Find Amber Deposit

Prospector Reports a Rich Discovery in Manitoba.

The Pas, Man. — With a gunny sack full of pure amber, Jack Murray, former editor of the Canadian Mining Journal, has returned from Cedar Lake, 80 miles southwest of here, where he reports a plentiful supply of amber is scattered about the sand and the much on the borders of the lake. He states that a canoe could be filled with it in less than an hour. The presence of amber at that place has been known for several years and until Murray's discovery its value was unknown.

Col. J. B. Miller, of the Barry Sound Lumber Company, and Major Craig, of Toronto, have left here for the amber fields.

## News of the Provinces

### MANITOBA

Winnipeg Man. — Col. W. G. Barker, V.C., the famous Canadian ace, was in the city recently arranging for the disposal of twenty-five aeroplanes for the United States and Canada. The Bishop-Barker Company is commencing a week-end service from Toronto to Miskin Lakes, and he predicted an aerial service between the Queen City and Winnipeg within the next five years.

Winnipeg, Man. — Flax fibre, grown and manufactured in Manitoba by the Netherlands Canadian Flax Co., brought one thousand eight hundred dollars per ton on the open market in Belgium. This was manufactured in the Beauséjour plant, and brought ninety cents per pound.

Brandon, Man. — J. M. Lohr, a Minnesota farmer, has purchased 7,200 acres of land near Ganton, and is breaking with a view to seeding with flax next year. In addition, he has rented five sections near Springfield, Man., which are seeded to flax this year.

### SASKATCHEWAN

Regina, Sask. — Latest report of crop conditions in Saskatchewan issued by the Provincial Department of Agriculture, is said to be the most favorable report ever issued by the Province. It comprises reports from 57 points, representative of the whole province, every reporting point testifying to the healthy state of the crop.

Saskatoon, Sask. — Milk producers patronizing provincial creameries now total 26,300, as against 19,760 twelve months ago. These figures only include shippers to the large plants submitting reports to the Government.

Moose Jaw, Sask. — Although in operation only four and a half months, the Southern Saskatchewan Stockyards have proved a successful undertaking. During this period, a total of 486 cars have been handled, comprising 29,000 head of livestock. The yards at the present time are capable of accommodating 3,000 head of cattle, and extensions of considerable dimensions are already planned.

## MAY PROHIBIT COAL EXPORT FROM CANADA

STATES WILL BE EXCEPTED

Conservation of Fuel Supply in View of the Almost Certain Shortage Next Winter.

Ottawa. — It is understood that as the first step towards conservation of the fuel supply, in view of an almost certain shortage next winter, the railway board will, in the near future, issue an order prohibiting the export of Canadian coal, excepting to the United States and Newfoundland.

It is also understood that the order will prohibit the bunkering of ocean going vessels at Montreal with American coal. This practice, it is stated, has resulted in the serious depletion of stocks of American coal brought to Canada. With the issuance of the order, it will be necessary for vessels to bunker with coal which is the product of Canadian mines.

At a conference of the members of the railway board, the coal situation was given preliminary consideration, and it is anticipated that measures other than these will be evoked to conserve the fuel supply. Seen after the conference, Chairman Carvell said he had nothing further to announce at present.

Winnipeg. — Gordon Bray, three-year-old son of R. E. Bray, one of the leaders in last year's Winnipeg strike and now serving a jail term, was burned to death here while playing with matches.

### ALBERTA

Calgary, Alta. — Further prospects for oil development in Western Canada are announced by the western superintendent of the Imperial Oil Company. In addition to the several wells the company are sinking in various parts of Alberta, a new prospect has been opened at Consul, Sask. The well at Canaan, Alta., is down about 1,400 feet, and progress is being made west of Nanton. In the far north, drilling is proceeding on Great Slave Lake and the McKenzie River.

Calgary, Alta. — The assistant manager of the Canadian Co-operative Wool Growers, states that Alberta will sell co-operatively a million and a half pounds of wool this year, or a quarter of the total Dominion sales.

Lethbridge, Alta. — The Dominion Government is ready to aid in the financing of the Lethbridge northern irrigation project. Strong resolutions have been voted to the Provincial and Federal Governments by the Boards of Trade and farmers' organizations in the south country looking for the two Governments to cooperate in financing the construction of the project until such time as the bonds can be sold.

### BRITISH COLUMBIA

Victoria, B.C. — E. S. Oliver, a chemist who has been investigating processes for the extraction of turpentine from the Douglas Fir, claims to have perfected a process. He has obtained a number of resin leases from the B.C. government and intends to commence operations at once.

Cranbrook, B.C. — It is reported that the Consolidated Mining and Smelting Company will reopen the St. Eugene mine at Moyie. The mine has produced over 5,000,000 ounces of silver and 229,000,000 lbs. of lead, valued at more than \$10,000,000.

Kamloops, B.C. — J. W. Fitch, a big game hunter from eastern Canada, reached here with a record bag, comprising nine grizzlies and three black bears, after a six weeks' hunt north of Revelstoke and Shuswap.

## To Get The Utmost ADVERTISE

Don't blame the people if they buy some place else. Remember it was advertising that sold them. You had the chance but refused it.

Profit by the past. Make use of the most potent force in all the world to-day. Advertising. The Pioneer is the axis around which this community revolves. Your customers read it because the news is authentic. It contains news from their neighborhood. Your advertisement is news every good housekeeper wants to read. She wants to know what you have, what it is, what it will do, and how much. Your advertisement in the Pioneer will tell good customers each week your story. It don't have to be a flowery story, but good honest, man-to-man talks.

The cost to you is so slight as to be negligible. Call us up by phone, let us talk it over.

### What It Is Like a Few Miles Up

(Continued from page 3)

suspension in the air, and through such interference are transmitted from etheric vibrations into other forms of energy—heat, light, electricity, etc.—(W. L. Moore in North American Review).

Labor parties' place in Manitoba legislature—head.

Manitoba Free Press—The most striking incident in yesterday's voting was the growth in the vote of Labor. It profiled in Brandon and two or three other constituencies by three cornered fights, and it will probably have a representation in the next legislature beyond its actual voting strength, but after making allowance for this, fact remains that Labor has now taken its place as a definite party in this country. A further fact is that the Labor party is bound to become the real or official opposition group in the house; it will definitely become thoroughly organized, with its own leader and caucus; and it represents a growing force which is bound to become formidable. It will take its place naturally as an aggressive opposition, making the fight against any government which may hold office.

FOR SALE—Three Standard and hard-shells, one black pacer 3 years old; one brown trotter 4 years old; one brown trotter, aged, a sure foot getter. Also carts, buggies and harness. D. M. Sinclair. e291f

"A spin in the country! The hamper full of good things to eat, the tank full of Imperial Premier gasoline and the crank-case filled with Imperial Polarine. Nothing can mar the day's pleasure!"

### Thorough Lubrication

IMPERIAL Polarine can be depended on to give you thorough lubrication, to keep the engine running quietly and faultlessly, to take you a 100 miles or 1,000 miles at the least cost for fuel, oil and repairs.

Imperial Polarine forms a piston-to-cylinder seal that maintains compression and utilizes the full power of the fuel. It spreads a thin, yet unbreakable oil film over every friction surface that minimizes wear—it is the perfect lubricant.

Imperial Polarine will not break up under high operating heats. It burns freely with hardly a trace of carbon. Costs less because it saves depreciation and loss. Sold in gallon and four-gallon coated cans, half-barrels and barrels, also 12½-gallon steel kegs, by dealers everywhere.

Look for the Imperial Polarine Chart of Recommendations when you buy oil. It shows which of the three grades described below is recommended for your car. Use the grades specified, exclusively.

IMPERIAL POLARINE (Light medium body)    IMPERIAL POLARINE HEAVY (Medium heavy body)    IMPERIAL POLARINE A (Extra heavy body)

A GRADE SPECIALLY SUITED TO YOUR MOTOR

### A FAIR, SQUARE MOTTO TO ALWAYS REMEMBER

Patronize a home industry that is building up and developing what is absolutely sure to increase the value of your farm properties.

This you can accomplish by always bringing us your milk, sweet or sour cream, or eggs in fact, any produce you have to sell. We can get you the best market. Our market for good sweet cream, which will bring you the highest price is unlimited.

We have the facilities to freeze it after you deliver it.

When continually patronizing us you have the advantage of selling either the whole milk, fresh sweet cream or sour cream, whichever will bring you the most dollars.

We ask your support and co-operation. Dairymen, our business is open for your inspection, from start to finish.

Come in and have a visit and see what we are planning to do for you.

## Quality First

QUALITY should be the first and main consideration in buying Lumber and Building Material.

Don't forget that.

Lumber that costs you \$2 a thousand more may really be worth \$20 more to you in the long run, because good lumber, in the first place, means less repair bills.

True, there are certain parts of buildings where the cheaper grades of stock can be economically and successfully used, but when it comes to the outside and places that have lots of wear and tear on them, get the best lumber possible and not the cheapest.

No matter what kind of lumber you buy, here—the cheaper or better grades—we always give the highest quality for the price paid.

## AROUND THE TOWN

Mr. and Mrs. J. F. Conley of Caveau, Wis., are visiting Mrs. Conley's sister, Mrs. J. R. Moln of Elkton.

Born.—A the home of Mrs. H. L. Rehner, to Mr. and Mrs. Alex. Baptist, boy twins, on July 24th.

There will be a dance in the Didsbury Opera House on Wednesday evening, August 11th. There will be good music and dancing will commence promptly at nine o'clock.

The many friends of Mr. A. Weber, accountant at the Union Bank, will be pleased to learn that he has just received notice of a well deserved promotion on the bank staff. He will leave shortly to take over the management of the Brudheim branch of the Union. Everyone will wish him the best of luck in his new position.

Mrs. W. O. Zimmerman was suddenly taken ill with appendicitis on Thursday night last. She was taken to the Didsbury General Hospital where Dr. Clarke and A. J. Went of Calgary, performed an operation which was entirely successful. Her many friends will be glad to hear that she is progressing favorably.

## HIGHLAND

Mr. Tom Thompson and family, Dr. Duncan of Didsbury and his brother of Calgary, spent the week end with Frank McKnight of Highland.

The crops in Highland are the best that have been grown west of Bergen.

Dr. Duncan says he is not scared of any trail now that he has seen the road work of the Bergen branch.

Ole Erickson is sure turning over land these days.

Thompson is wondering why the roads are so long at a time when the mosquitos are so thick.

## A Bad Hail Storm

A severe hail storm, covering roughly an area three miles wide and 25 miles long, struck the Carstairs and Didsbury district Monday afternoon, sweeping east as far as the Rosebud district. This is estimated to be the heaviest storm of the season thus far.

E. H. Malcolm, chairman of the Alberta hail board, stated that definite reports would not be received on the storm until today but that reports received by phone—placed the estimated area as stated above. The storm started in the vicinity of Carstairs and swept west to and Rosebud districts. The damage is said to be heavy.

What would you do if you were to blow out your last inner tube and not have the means to repair it? Run it on the rim, yes, but if you had any distance to go, you know how that rim would look.

Here's how one motorist in New York got away with it.

He had a large number of blowouts. Finally the last spare tube went, and his tube repair kit was not in the car. He didn't want to take a trip in on three wheels and a rim, so he headed for the nearest ranch. In a few minutes he returned with an armful of gunny sacks.

Removing the casing, he took out the useless inner tube and stuffed the casing with the gunny sacks, being careful to get them in evenly.

After the casing had been packed hard he replaced the wheel and went merrily on his way, certain that he would have no more punctures in that wheel at east.

## Help the Child to Help Himself

It is difficult for a child to realize the value of money. Make him a present of a savings pass book. The Savings Account will mean far more than the amount deposited. It will mark the commencement of THE HABIT OF THRIFT.

## Valuable Deposits in North

Ottawa, July 22.—Proposals are already on foot, it is said, for the reduction of tar sands known to exist by billions of tons along the Athabasca river in Alberta. From the sands it is estimated that huge quantities of gasoline, kerosene, naphtha, kerosene, and oil can be secured. In 1913, Dr. Bosworth of the Imperial oil research laboratories, estimated that there would be sufficient oils obtained from the Athabasca tar sands to supply the entire world demand for hundreds of years. By an order-in-council gazetted last week, the lands containing these sands were withdrawn from settlement or other disposal, thus leaving them free for development.
